Professional Summary

Aspiring Java Full Stack Developer with a Master of Computer Applications (MCA) and hands-on experience in Java, JDBC, Servlets, SQL, and MySQL. Built full-stack and desktop applications using MVC architecture, DAO pattern, and relational databases. Passionate about software development, problem-solving, and building scalable web applications.

Technical Skills

Languages: Java, SQL, JavaScript, PHP

Frontend: HTML5, CSS3, JavaScript

Backend: Core Java, JDBC, Servlets, PHP

Databases: MySQL

Frameworks & Libraries: JavaFX

Tools & Platforms: Git, GitHub, MySQL Workbench, Eclipse EE, Apache Tomcat 9

Professional Experience

Luminar Technolab | Java Full Stack Intern

Jan 2026 – Present

- Developed web application modules using Java, Servlets, JDBC, MySQL, HTML, CSS, and JavaScript.
- Implemented CRUD operations and database connectivity using JDBC for efficient data management.
- Built role-based application features and integrated frontend components with backend services following MVC architecture.
- Participated in debugging, testing, and optimizing application functionality to improve performance and reliability

Projects

Mits Placement Management System (Department Capstone Project)

Technologies: PHP, MySQL, HTML5, CSS3, JavaScript

- Developed a full-stack Placement Management System with role-based modules for Admin, Student, and Company users.
- Designed relational MySQL database structures to handle student registrations, job postings, and automated application tracking.
- Integrated responsive frontend UI components with backend logic to deliver streamlined data filtering and dynamic dashboard performance.

JasmineLogix: Inventory & Sales Management System

Technologies: Java EE, Servlets, JDBC, MySQL, Apache Tomcat 9, HTML5

- Developed a web-based inventory and sales management system for artificial jasmine products using Java EE, Servlets, JDBC, and MySQL following the MVC architecture.
- Implemented inventory tracking, procurement management, automated billing, and dynamic sales reporting to monitor revenue and profitability
- Utilized the DAO pattern for database operations and deployed the application on Apache Tomcat 9 to ensure maintainable and scalable application architecture.

Online Voting System

Technologies: Java EE, Servlets, JDBC, MySQL, Apache Tomcat 9, HTML5

- Developed a web-based Online Voting System using Java EE, Servlets, JDBC, and MySQL following the MVC architecture.
- Implemented user authentication, session management, and duplicate-vote prevention to ensure secure voting.
- Utilized the DAO pattern for database operations and deployed the application on Apache Tomcat 9.

Student Management System

Technologies: Java, JavaFX, JDBC, MySQL

- Developed a desktop-based Student Management System using JavaFX for managing student records and academic information.
- Implemented CRUD operations with JDBC and MySQL for efficient data storage and retrieval.
- Designed an interactive GUI with form validation and search functionality to improve usability and data management.

Education

Muthoot Institute of Technology and Science

2023 – 2025

Master of Computer Applications

CGPA:7.50

KMM College of Arts and Science

2020 – 2023

Bachelor of Computer Applications

CGPA:7.49

Kendriya Vidyalaya Ernakulam

2018 – 2020

Higher Secondary Education

CGPA:7.80

Certificates & Achievements

- Introduction to MS Excel - Simplilearn, 2025
- Elite Silver Certification in Internet of Things (IoT) – NPTEL, 2024.
- SQL (Basic) Skill Certification – HackerRank.
